

## DON'T EXPERIMENT

You Will Make No Mistake if You Follow This Advice.

Never neglect your kidneys. If you have pain in the back, urinary disorders, dizziness and nervousness, it's time to act and not too late to experiment. These are frequently symptoms of kidney trouble, and a remedy which is recommended for the kidneys should be taken in time.

Doan's Kidney Pills are a good remedy to use. It has acted effectively in many cases in this vicinity.

"Can Guthrie residents demand further proof than the following testimonials?"

Mrs. J. J. Barth, Perkins, Okla., says: "My experience with Doan's Kidney Pills proved them to be a good kidney remedy. They relieved pains in my back from which I had suffered for some time and corrected the trouble with the kidney secretion. My little girl also had trouble from her kidneys and Doan's Kidney Pills soon removed the annoyance. We always keep this remedy on hand."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Barth had. Foster-Milburn Co., Chicago, Buffalo, N. Y.

## CAPPER ISSUES "BOOZE ORDER" IN KANSAS

Topeka, Kan., June 29.—The Kansas state pay roll will be free, not alone of booze, but even of every moderate drinker that may have a job with the state. If the newly created civil service board which is to organize today, heeds the suggestion of Governor Arthur Capper, in a letter addressed to the members of the board, made public last evening, the governor suggests that the commission adopt a rule making ineligible to any position any person who uses intoxicating liquors in any form. He would have the rule apply also to persons on the state pay roll, making the use of liquor by an employee sufficient grounds for dismissal.

## FIFTY YEARS IN WEDLOCK FOR THIS COUPLE

## MR. AND MRS. JACOB PARTENHEIMER CELEBRATE GOLDEN WEDDING

The golden wedding of Mr. and Mrs. Jacob Partenheimer was celebrated at their residence in East Guthrie, Tuesday afternoon, when a large number of their friends assembled to congratulate the happy couple on attaining the fiftieth milestone on their journey together along their life path.

Jacob Partenheimer was born at Bingen-on-Rhine, Nov. 26, 1839. Miss Kate Becker was born in Hessian-Darmstadt, April 18, 1848. Both came to America the same year, settled on adjoining farms in Sheridan county, Mo., and were married at Salisbury, Mo., fifty years ago. Their son, Fred, their only living child, was present with his children, Kathryn, Frank and Carl, the only grandchildren. The widow of their son, Thomas, (now Mrs. Sam White), came from Portland, Ore., to attend the golden anniversary of the marriage of the old people.

When a lad in his 17th year Mr. Partenheimer had some great and wonderful experiences in helping develop the western country, and when the war broke out he entered the 18th Missouri and served his four years. He and his wife lived near Salisbury most of the time till Oklahoma was opened, when they secured a good claim eight miles from Guthrie, which they still own. They have lived in the city three years. They have made a host of warm friends wherever they have lived, and over forty were at the celebration—which was strictly an informal affair. Many of Mr. Partenheimer's old army comrades were present to congratulate him on his good health and wished him and his good wife many happy years together as they travel serenely down the sunny slope of life's journey. Many nice and valuable remembrances were showered on the unsuspecting couple. Among the decoration was a golden basket filled with golden flowers among which were fifty golden dollars. The afternoon was spent in interesting reminiscences, with delicious refreshments and all left the happy couple with hearty congratulations and wishes for their future health and long life.

## DR. PARSONS TELLS OF CANCER SURGERY

(By Associated Press.)

Chicago, June 30.—"When is Cancer Curable?" was the subject of a paper by Dr. Scott Parsons of St. Louis, which was read before the Surgical Society of the American Institute of Homeopathy in session here today.

According to Dr. Parsons, the paper was prompted by queries as to why some cases of cancer get well and others die, when the general characteristics, symptoms and type of growth are apparently identical. In part he said:

"As I have thought the subject over it appears to me that there are several factors which might make for success or failure in the treatment of this mysterious disease.

"Five essential factors appear to play the all-important role in the cured case of cancer. They are: the type of growth; resistance and susceptibility of the patient; age of the patient; period in which treatment is begun; and method of treatment and technique."

After speaking of the pathology of the different varieties of cancer Dr. Parsons stated that "so far, the superficial or skin cancers, often the best chance for cure and are amenable to operation, cautery, X-ray and radium. As to that type of cancer attacking the breast and womb while giving a much higher mortality, early, radical operation is the only treatment so far furnishing a success."

ful result. The high mortality is due to delayed operation.

"The age of the patient plays an important role. Cancer of all types are to be considered an extremely serious ailment, more so in those of the first and second triennial of life, or from 20 to 30 years of age. Those over 50 offer the best possible chances of recovery.

"Cancer surgery has reached a stage of specialization and to be successful requires, on the part of the operator, besides an exact knowledge of anatomy and pathology, holdness, expert technical knowledge, faultless surgical cleanliness and wise surgical judgment."

I AM THE NEWSPAPER

Horn of the deep, daily need of a nation—I am the Voice of Now—the Inaugural spirit of the times—monarch of things that are.

My "cold type" burns with the fire-blood of human action. I am fed by arteries of wire that girdle the earth. I drink from the cup of every living joy and sorrow. I sleep not—rest not. I know no night, nor day, nor season. I know no death, yet I am born again with every morn—with every noon—vibrant every twilight. I leap into fresh being with every new world's event.

Those who created me cease to be—the brains and heart's-blood that nourish me go the way of human dissolution. Yet I live on—and on.

I am majestic in my strength, sublime in my power, terrible in my potentialities—yet as democratic as the ragged boy who sells me for a penny.

I am the consort of kings, the partner of capital, the brother of toil. The inspiration of the hopeless, the right arm of the needy, the champion of the oppressed, the conscience of the criminal. I am the epitome of the world's comedy and tragedy.

## DR. NESBIT, CHARACTER IN MARK TWAIN'S BOOK, DIES

Fulton, Mo., June 30.—Dr. Benjamin R. Nesbit, 79 years old, a native of this county and one of the characters in Mark Twain's "Innocence Abroad," died at his home in Pomona, Cal. Dr. Nesbit and his brother, the late Judge Nesbit, joined an excursion of Americans to Europe and Egypt in 1868. Mark Twain was a member of the same party and when he returned to his native country he wrote "Innocence Abroad" in which he related incidents of that journey to the Old World.

Readers of the book will recall "the judge" who was always making wise remarks on all occasions in European historical spots. "The judge" was Judge Nesbit. Dr. Nesbit was at one time interested in the street railway company at Pomona.

## FIFTY MILLION DOLLAR MELLON CUT BY DU PONT

## POWDER INDUSTRY OF NATION IS PAYING FABULOUS DIVIDENDS

Wilmington, Del., June 30.—The common stock of the Du Pont Powder company, which has had a sensational rise within the past five months, touched \$700 yesterday. The par is \$100. The advance means a profit of about \$50,000,000 to the syndicate of Du Pont company officials, headed by the president, Pierre S. Du Pont, who bought the holdings of General T. Coleman Du Pont, former president, last February.

The price paid for the General's stock was \$200 a share, or an approximate total of \$20,000,000.

The stock was not acquired for speculative purposes. When the president of the company announced his intention to retire from the active participation in the management of the powder concern, other leading officials bought the shares in order to control them. They organized a holding company.

Soon afterward, when big war orders were received from Europe, the stock went upward by leaps and bounds. General Du Pont is satisfied, however, for during the month of January he was in the hospital, and preceding the sale his holdings increased \$5,000,000.

It was following this sale that the General bought the majority stocks of the Equitable Life Assurance Society from the Morgan estate.

## All Stand For Mrs. Horton.

Guthrie, Okla., June 29, 1915. The following resolutions were passed by the colored women of Guthrie and presented to the mayor and commissioners:

Whereas, it becomes our painful duty to come before your honorable body to raise our voices in solemn protest against what we firmly believe to be an approaching calamity which must and will soon tear down and obliterate the work which the colored women have been years doing; that is the building of Excelsior Library—an institution for the uplift of our boys and girls, yes the elevation of a benighted people, something that points our boys and girls to a brighter future; and,

Whereas, in our efforts we did not contemplate the introduction of politics into the management of the institution; and,

Whereas, it strikes us most forcibly that our cherished hopes are about to be blasted by turning our institution over, soul and body, to the mismanagement of politicians; and,

Whereas, it appears on the surface that a majority of the members on our Library Board are incompetent to properly manage and direct the affairs of said library; and,

Whereas, a majority of said board has shown its incompetence and lack of knowledge of their duties by the selection of persons as librarians who are without experience and wholly unfit by education to do efficient service. It is plain that a majority of said board has for its sole purpose motives antagonistic to the best interests of the library and saving of graft and politics; and,

Whereas, our purposes for race elevation are being thwarted and checked; therefore,

Be It Resolved, That we do pray and request the honorable commissioners of the City of Guthrie to help us maintain our institution on the lines for which we organized it, and that we be relieved from the blighting hands of designing politicians, and that a majority of the members of the present board of Excelsior Library be at once removed and that good and competent persons be appointed in their stead.

All this we ask in the name of God.

## Hints on Embroidery

Useful Designs for Many Purposes

How often it happens that one wishes for just a little design to fill into some barren corner of the peace's plumage for a bird for a cushion or scarf, an emblem for a boy's suit, a nursery design for baby's laundry bag, etc. Then it is that the pattern filled with miscellaneous designs fits in like a what-not in a corner.

From the pattern which strips proudly about in the left-hand corner of the pattern book, the whole gamut of useful design is suited to development in the simplest stitches, although there is ample opportunity for elaboration if the needleworker is so inclined. The possibilities of the peace's plumage for beautiful shaded effects are too apparent for detailed description.

The Dutch children sitting on the wall go to the other extreme, for that.

There is a dear little Chinese boy under the protection of a paper sunshade who can be worked for all he is worth in a few minutes with the aid of outline embroidery.

The embroidery patterns illustrated and described herein, together with 200 others covering all possible uses, are included in the "Innovation Embroidery Pattern Book" now being prepared by this newspaper, as explained elsewhere in these columns.

The parrots, flocks of birds and sprays of small flowers supply designs for pin cushions, handkerchiefs, fancy bags, aprons, etc., and must be done in cold satin, outline, eyelet and seed stitching to appear to best advantage.

The flag which waves at the upper right-hand corner of the pattern may be embroidered in solid satin stitch, or have the stripes done in outline, with the stars of well-padded satin stitch.

Eyelets, outline and buttonhole embroidery are used for the butterfly.

Justice, liberty, mercy, right, a fair play.

## FOLEY KIDNEY PILLS FOR BACKACHE, KIDNEYS AND BLADDER

## BLASTS ALL LIFE WITHIN 150 YARDS

Warsaw, June 30.—Seven nights of the wounds in the Galien fighting were caused by shells, half of which were fired from big calibre guns, said surgeon Major Leighton-Smith in an interview on returning to Warsaw from the front.

"Bullets play no part now," he continued, "and the infantry's rifle is a toy. Infantry merely occupies the trenches the cannon have won."

"Most devastating of all at the new Skoda shells of the German allies, which are 17 inches in diameter and weigh 2,800 pounds. The latest Howitzer shoots at a high angle, and its shell penetrates twenty feet into soft earth before exploding, in seconds after striking. The Howitzer does not resemble the Krupp mortar of the same calibre, to which they are said to be superior in every way.

"When a Skoda shell hits it means death to everything within radius of 150 yards and even farther off. The mere pressure of its gas rips open the bomb proof shelters and carries those who escape the metal fragments and flying debris. This gas (tera) the body cavities and tears the lungs, sometimes stripping the meat of their clothing. Of course the men in the neighborhood of the explosion are unharmed.

"So fierce is the heat of the explosion of the shells that it sets rifle

barrels as if they had been struck by lightning."

## REFUSED TO LISTEN TO BRYAN PEACE TALK

Chicago, June 29.—William Jennings Bryan did not deliver his address on peace before the Sons of Testaments here last night as had been planned. G. F. Hummel, chairman of the committee on arrangements, called off the meeting after telegraphing Mr. Bryan at New York suggesting that the topic be exportation of ammunition to Europe. Mr. Bryan said he would discuss the change when he arrived in Chicago.

Mr. Bryan left last night for Lincoln, Neb., in speaking of his plans Mr. Bryan said:

"I will spend such time lecturing as may be necessary. It will not be more than three months a year. I expect to devote some time each year speaking to students at colleges on subjects connected with citizenship. I shall continue my newspaper editorials."

Hummel in speaking of the calling off of the mass meeting said:

"We wanted him to talk on the exportation of ammunition and he offered to repeat his lecture on peace. That talk would do us no good. Stop the exportation of ammunition and there would be peace in a month."
